**Gray Davis**  
Governor

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website at [www.swrcb.ca.gov/rwqcb8](http://www.swrcb.ca.gov/rwqcb8).*

May 2001

Applicant: Lesley Ballou

Agent: State of California Department of Transportation

Project Name: Anaheim Bay Bridge and Abutment and Slope Repair Project

Receiving Water: Anaheim Bay

Project Description: The proposed project proposes to protect the Anaheim Bay bridge abutments and approach slopes from further damage by repairing the eroded abutments and restoring the approach slopes to the original 1.5:5 (Horizontal: Vertical) slope. This will require the contractor to grade portions of the existing slope in order to create a temporary dirt access road. The project will also include the removal of existing reinforced concrete slabs, existing rocks and abandoned poles between the old abandoned pier and the proposed slope project.

There will be no addition or expansion of the existing bridge.

No mitigation is proposed for this project. Further wetlands will not be encroached upon, as the footprint of the lot will remain exactly the same.

Contact at Regional Board: Stephanie M. Gasca (909) 782-3221
